Peoplebank Singapore has prepared this resume based on the information provided by the candidate, or by a referee in the case of a verbal reference. It remains the property of Peoplebank Singapore and should not be passed on to a third party without the prior consent of Peoplebank Singapore. You must only transfer personal information to a recipient in a foreign country either within your company or outside it, in circumstances where the information will have appropriate privacy and any other relevant legal protection. In either case, you must have written consent from Peoplebank Singapore to do this. Whilst every effort has been taken to ensure the content of this resume is accurate, Peoplebank Singapore does not accept liability for any information which is subsequently found to be inaccurate through further investigation or performance of the individual to whom the resume relates.

In the event you accept this candidate for placement, the placement shall be subject to our standard terms and conditions, unless otherwise agreed between us in writing prior to the commencement of the placement.

ERIC HO JI YUAN

WORK EXPERIENCES

HPE (Hewlett Packard Enterprise) | PreSales Engineer **July 2023– Present**

- Applied domain expertise in AI Ops and Cloud Management Platform to design tailored proposals for customers, showcasing HPE's capabilities in areas such as incident correlation, observability and multi-cloud management.
- Conducted 20+ enablement workshops and product demos across the APAC region, demonstrating OpsRamp's Unified AI Ops platform and effectively highlighting AI Ops and ITOM capabilities to key IT stakeholders.
- Led over 40 in-depth consultations with clients to understand their IT operations maturity, infrastructure complexity, growth projections, and pain points — with a focus on identifying opportunities for infrastructure transformation with HPE solutions.
- Co-developed technical proposals, Scope of Work (SOW) and Request for Proposals (RFPs) responses, through collaborating closely with the respective sales and engineering teams.
- Designed and scoped more than 30 technical implementation services to address customers' needs and challenges - services include VM migrations, backup services and container platforms rollouts etc.

VMware | Solutions Engineer Intern **May 2022– Aug 2022**

- Delivered technical demos of vSphere, Horizon, and Carbon Black to 10+ enterprise stakeholders, strengthening VMware's competitive positioning and technical fit
- Ran enablement sessions for over 10 APAC partners, increasing their readiness to run independent demos and driving partner-led pipelines.
- Supported over 5 Proof of Concepts meetings for accounts across APAC, effectively driving the pipeline.

Shopee | Business Analyst Intern **Jan 2022 – Apr 2022**

- Liaised with Product Managers to gather requirements for Product Requirement Deliverables, and effectively improve the features within the Shopee vendors platform.
- Executed over 5 UAT testing with relevant parties to improve Salesforce CRM design and structure.
- Monitor and tracked vendors' performance across Shopee platform and concurrently spearheading the Vendor's performance improvement program.

IBM | Junior Technology Consultant Intern **Aug 2021- Dec 2021**

- Collaborated with system engineers to design 20+ system enhancements, aligning improvements to customer business requirements
- Conducted UAT for 30 features and tested using SoapUI and JMeter for functional and load testing.
- Delivered front-end enhancements in Java/HTML to improve UI responsiveness and user experience.
