EXECUTIVE SUMMARY

Experienced **Pre-Sales Cloud Solution Architect** with a strong background in designing, positioning, and delivering secure, scalable cloud solutions across **AWS and Azure**. Currently supporting pre-sales engagements, he partners closely with sales teams to analyze customer requirements, present solution architectures, develop technical proposals, blueprints, and cost estimates, and conduct proof-of-concept demonstrations. He advises clients on cloud adoption strategies, modernization initiatives, and migration roadmaps, acting as a trusted technical consultant throughout the sales cycle.

Backed by deep hands-on expertise, he has led solution design across complex cloud and hybrid environments, including landing zones, security architectures, DevSecOps frameworks, and large-scale migration initiatives. His experience of responding to **RFPs, RFQs, and tenders**, combined with strong documentation and stakeholder communication skills, enables seamless transition from pre-sales to delivery. He brings a practical, outcome-driven approach to cloud solutioning, ensuring technical feasibility, cost optimization, compliance, and long-term business value.
